## About Me

A driven MERN Stack Developer and Computer Science student with a passion for building engaging, modern web applications. Over a year of focused development experience crafting full-stack solutions with responsive UIs and seamless user flows.

## Education

B.Sc. in Computer Science — Suez Canal University **2023 – 2027**

## Technical Skills

Languages: JavaScript, C/C++, Python, Bash

Frontend: HTML, CSS, Bootstrap, Tailwind CSS, SASS, TypeScript, React.js, Next.js, jQuery, Redux, Material UI, React Native

Backend: Node.js, Express.js, MongoDB

Tools: Git, VIM, Postman, Linux

## Professional Skills

|                 |                 |                   |          |             |               |
|-----------------|-----------------|-------------------|----------|-------------|---------------|
| Problem Solving | Time Management | Critical Thinking | Teamwork | Freelancing | Video Editing |
|-----------------|-----------------|-------------------|----------|-------------|---------------|

## Projects

- Special Tic-Tac-Toe | Full Stack **(Aug 2024)**

Reimagined the classic game with React, Node.js, and Express. Features real-time multiplayer, authentication, and chat with a responsive UI for seamless gameplay.

 <https://github.com/ImComy/online-special-ttt>

- Modaresy | MERN Stack **(May 2024 – Ongoing)**

A full-stack tutoring platform with secure authentication, video-based tutor profiles, and direct WhatsApp messaging using the MERN stack.
