About Me

I'm a driven MERN Stack Developer and a Computer Science student, passionate about building cutting-edge web applications that deliver great user experiences. With over a year of dedicated learning in web development, I've honed my skills in crafting innovative solutions that exceed user expectations.

Education

BACHELOR OF COMPUTER SCIENCE
Suez Canal University (2023 - 2027)

Technical Skills

- Languages: JavaScript, C/C++, Python, Bash
- Frontend: HTML, CSS, Bootstrap, Tailwind CSS, SASS, TypeScript, React.js, Next.js, jQuery, Redux, Material UI, React Native
- Backend: Node.js, Express.js, MongoDB
- Tools: Git, VIM, Postman, Linux

Skills & Abilities

- Problem Solving	- Video Editing
- Time Management	- Teamwork
- Critical Thinking	- Freelancing

Projects

- *Special Tic-Tac-Toe | Full Stack (August 2024)*
  [Online Special Tic-Tac-Toe](#) *is a full-stack web application that reimagines the classic game with unique rules and real-time multiplayer features. Built using React, Node.js, and Express, it includes secure user authentication, responsive UI, and real-time chat functionality. The game provides a seamless experience with real-time updates for both single and multiplayer modes.*

- *GO OFFER | MERN Stack (June 2024 - July 2024)*
  [GO OFFER](#) *is a MERN Stack project (React, MongoDB, Express, Node, CSS) that manages coupons and offers. It features user authentication, secure password handling, and a visually appealing UI, with RESTful APIs for efficient backend operations, prioritizing scalability and user experience.*

CERTIFICATES & COURSES

- *ITI Summer Course in Front-End Development 162hours (August 2024)*
  Completed a comprehensive front-end development course at ITI (Information Technology Institue), mastering HTML, CSS, JavaScript, HTML5, jQuery, SASS, and Bootstrap. I applied these skills to real-world projects, gaining hands-on experience with responsive design, interactive UIs, and best practices in web development.

- *JavaScript and TypeScript Certifications, Great Learning (2024)*
  Earned certifications in JavaScript and TypeScript, gaining in-depth knowledge of JavaScript programming and advanced TypeScript features. Developed skills to build dynamic, scalable web applications with clean, maintainable code.
